

## Critical Path Working Group Terms of Reference

### Vision:

Critical Path: the steps that need to be taken to get us to Treaty.

The goal of the Critical Path Working Group (CPWG) is to prepare for Treaty implementation. The CPWG will work back from the date treaty comes into effect to define our major milestones and needs as we plan for and manage the successful implementation of Treaty. The CPWG will make recommendations to the SXTA decision makers. One of our objectives is to define subgroups that will add detail to the development and implementation of the Critical Path Plan.
